EXPERIENCE

Lecturer of Computer Science

Jan 2025 – Present

Life University, Sihanoukville, Cambodia

- Teach undergraduate courses in programming, database systems, web development, and software engineering.
- Prepare course materials, assignments, examinations, and practical lab exercises.
- Mentor students in software development projects and technical problem-solving.

Lecturer of Computer Science (Part-time)

May 2024 – Dec 2025

Life University, Sihanoukville, Cambodia

- Delivered lectures and lab sessions in programming, database design, and web application development.
- Contributed to the Life Football Club e-ticketing platform using Laravel and related web technologies.
- Developed fctickets.lifeun.edu.kh using Laravel, PHP, MySQL, JavaScript, AJAX, jQuery, Blade, and ABA PayWay.

Web Developer

Jan 2023 – Jan 2025

Life University, Sihanoukville, Cambodia

- Developed and maintained the university website using WordPress.
- Built and maintained business web applications using Laravel, PHP, MySQL, AJAX, jQuery, Tailwind, APIs, and a Telegram bot.
- Collaborated with stakeholders on requirements and UI design; performed testing, debugging, and maintenance.

Chinese Teacher (Part-time)

Jul 2022 – 2025

Tai Zhong Chinese Center, Sihanoukville, Cambodia

- Taught Mandarin to children and adult groups; prepared tailored lesson plans and practice materials.

PROJECTS

FC Tickets — E-Ticketing Platform

fctickets.lifeun.edu.kh

Online ticketing platform with QR-code verification and ABA PayWay integration for Life Football Club, including an admin dashboard for ticket and payment management.

Laravel · PHP · MySQL · JavaScript · AJAX · jQuery · Blade · ABA PayWay

Coffee POS System

Point-of-sale system for coffee shop operations with product management, inventory tracking, sales processing, reporting, and Telegram bot notifications.

Laravel · PHP · MySQL · JavaScript · AJAX · jQuery · Telegram Bot

Shirt POS System

Retail POS system for products, sales transactions, and inventory, with order processing, reporting, and Telegram notifications.

Laravel · PHP · MySQL · JavaScript · AJAX · jQuery · Telegram Bot

Life University Website

lifeun.edu.kh

Official university website — content, security, and performance management with Cloudflare configuration and DNS records.

WordPress · Cloudflare · HTML · CSS · JavaScript

Student Enrollment System

Online enrollment and admission system with a Laravel REST API integrated into a Flutter mobile app, including data validation and application tracking.

Laravel · Flutter · MySQL · REST API
